CENTRAL INTELLIGENCE BULLETIN

28 July 1961

DAILY BRIEF

[redacted] (b)(3)

*Tunisia: Hammarskjold is convinced, and probably will so inform the Security Council on 28 July, that the continued presence of French forces in Bizerte, against the will of Tunisia, must be considered a threat to international peace and security within the meaning of the UN Charter. He is almost certain to recommend that France accept the principle of evacuation as desired by Tunisia and the negotiation--"free from any pressure from either side"--of a reasonable schedule of evacuation.
